**RE: Moving the College in Fall of 2020  
A Three Year Process**

Dear Students, Faculty, and Community:

The Washington Polytechnic Institute is planning to move to the Wenatchee Valley in the Fall of 2020. All currently enrolled program students will have the opportunity to complete their degree. **Our plan is to graduate all current students, over the next (3) years, and then move the College.**

New program enrollment was closed, so that we can start the process. Now we will focus our efforts on degree planning, teaching, and getting current students graduated. It is very important that current students take all degree program courses when they are offered, from here on out, as course offerings will be limited and focused on graduation requirements.

Please note that the process to obtain transcripts will stay the same after the college move.

You can contact me at [dbren@weiedu.org](mailto:dbren@weiedu.org) or (360) 739-1428 if you have questions or comments regarding this process.

Sincerely,

Dave C. Bren, PE, MSCE  
President
